An efficient method for determining a price is to send out a survey to your present customers. If these clients have already purchased an e-book from you, ask for their opinion in terms of price. Do this by making a sales page for the brand new book, however don't embody a price on that page. As an alternative, add quite a few links to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

One other strategy is to test out costs by making a variety of duplicate gross sales pages with different costs on each page. Be certain your gross sales copy is precisely the similar on every web page, and contains your promoting-handle sentence. Then work out for every web page the conversion ratio between guests to your website and gross sales of your book. This will tell you what your optimum price is.

Finally, when you've written a ebook that solves a problem or presents a new approach, your book will bring in each site visitors and profits.
