An efficient approach for figuring out a value is to send out a survey to your present customers. If these clients have already bought an e-book from you, ask for his or her opinion in terms of price. Do that by making a gross sales page for the new e book, but do not embrace a price on that page. Instead, add quite a lot of hyperlinks to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

Another strategy is to check out prices by creating a variety of duplicate gross sales pages with totally different costs on every page. Ensure your gross sales copy is strictly the similar on every web page, and contains your promoting-deal with sentence. Then work out for every web page the conversion ratio between visitors to your web site and gross sales of your book. This may tell you what your optimum value is.

In the end, in the event you've written a book that solves a drawback or presents a brand new method, your e book will bring in both site visitors and profits.
