An efficient approach for figuring out a price is to send out a survey to your current customers. If these clients have already bought an e-book from you, ask for their opinion in terms of price. Do that by creating a gross sales web page for the new ebook, but don't embody a worth on that page. Instead, add quite a lot of hyperlinks to survey questions that ask pointed questions to aid you in assigning a worth to your ebook.

Another technique is to check out prices by making a number of duplicate sales pages with totally different prices on each page. Be sure that your gross sales copy is precisely the identical on each

page, and contains your promoting-deal with sentence. Then determine for every page the conversion ratio between guests to your website and gross sales of your book. This will tell you what your optimum price is.

In the end, in the event you've written a ebook that solves a drawback or presents a new method, your e book will usher in both visitors and profits.
