One is to present one thing away totally free together with your book, reminiscent of a priceless bonus item. Or bundle several ebooks below one value, which lowers the value for each book if they have been bought separately.

An effective method for figuring out a value is to send out a survey to your current customers. If these prospects have already bought an e book from you, ask for his or her opinion when it comes to price. Do this by making a sales page for the new ebook, but do not embody a value on that page. Instead, add quite a lot of hyperlinks to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

Another technique is to check out prices by creating a variety of duplicate sales pages with totally different prices on each page. Make sure that your gross sales copy is strictly the similar on every

page, and includes your selling-deal with sentence. Then work out for each web page the conversion ratio between visitors to your site and gross sales of your book. It will let you know what your optimum price is.

Finally, if you happen to've written a guide that solves a downside or presents a new technique, your e-book will herald both site visitors and profits. So make sure you write that promoting-handle sentence that sums up what problem your ebook solves and what the advantages of your 37 book will be to the customers who buy it. And then watch your market come to you!
