In addition to promoting your books assiduously online, there are a number of different methods that may help you promote more books.

One is to provide something away without spending a dime along with your e-book, equivalent to a precious bonus item. Or bundle several ebooks under one value, which lowers the worth for every e-book if they have been bought separately.

An effective approach for determining a worth is to send out a survey to your present customers. If these prospects have already purchased an book from you, ask for their opinion when it comes to price. Do this by creating a gross sales web page for the brand new book, however don't include a worth on that page. Instead, add quite a lot of links to survey questions that ask pointed questions to assist you in assigning a value to your ebook.

Another technique is to test out costs by making a number of duplicate gross sales pages with totally different costs on each page. Make sure that your gross sales copy is strictly the same on every page, and consists of your promoting-handle sentence. Then determine for each page the conversion ratio between guests to your web site and sales of your book. This will let you know what your optimum worth is.

In the end, if you've written a guide that solves a drawback or presents a new method, your guide will bring in each visitors and profits. So make sure to write that selling-deal with sentence that sums up what downside your e-book solves and what the benefits of your 690 e book will probably be to the customers who buy it. And then watch your market come to you!
